

Prevaccination Checklist for COVID-19 Vaccines

For Vaccine recipients: The following questions will help us determine if there is any reason you should not get the COVID-19 vaccine today. If you answer "yes" to any question, it does not necessarily mean you should not be			
vaccinated. It just means additional questions may be asked. If a question is not clear, please ask your healthcare provider to explain it.	Yes	No	Don't know
1. Are you feeling sick today?			
2. Have you ever received a dose of COVID-19 vaccine? • If yes, which vaccine product did you receive? □ Pfizer □ Moderna □ Janssen □ Another Product (Johnson & Johnson)			
Did you bring your vaccination record card or other documentation? (yes/no)			
 3. Have you ever had an allergic reaction to: (This would include a severe allergic reaction [e.g., anaphylaxis] that required treatment with epinephrine or EpiPen® or that caused you to go to the hospital. It would also include an allergic reaction that caused hives, swelling, or respiratory distress, including wheezing.) A component of a COVID-19 vaccine, including either of the following: Polyethylene glycol (PEG), which is found in some medications, such as laxatives and 			
preparations for colonoscopy procedures			
o Polysorbate, which is found in some vaccines, film coated tablets, and intravenous steroids			
A previous dose of COVID-19 vaccine			
4. Have you ever had an allergic reaction to another vaccine (other than COVID-19 vaccine) or an injectable medication? (This would include a severe allergic reaction [e.g., anaphylaxis] that required treatment with epinephrine or EpiPen® or that caused you to go to the hospital. It would also include an allergic reaction that caused hives, swelling, or respiratory distress, including wheezing.)			
5. Check all that apply to you:			
☐ Am a female between ages 18 and 49 years old			
☐ Am a male between ages 12 and 29 years old			
☐ Have a history of myocarditis or pericarditis			
☐ Had a severe allergic reaction to something other than a vaccine or injectable therapy such as food, per environmental or oral medication allergies	t, venom,		
\square Had COVID-19 and was treated with monoclonal antibodies or convalescent serum			
\square Diagnosed with Multisystem Inflammatory Syndrome (MIS-C or MIS-A) after a COVID-19 infection			
☐ Have a weakened immune system (i.e., HIV infection, cancer)			
☐ Take immunosuppressive drugs or therapies			
☐ Have a bleeding disorder			
☐ Take a blood thinner			
☐ Have a history of herparin-induced thrombocytopenia (HIT)			
☐ Am currently pregnant or breastfeeding			
☐ Have received dermal fillers
